

Mini 4K HDMI/DVI to Fiber Converter

MINI 4K HDMI/DVI to Fiber converter is designed to transmit HDMI/DVI signals over optic fiber cable, with which we can transmit 1-channel HDMI/DVI signals over one duplex optic fiber, Long Distance, Lossless, Non-compression, Real-time transmission. Well used in CCTV. The fiber optic cable must be OM3 Multi mode fiber optic cable.

Features:	
1) High definition, real-time, Support 3840x2060, 30Hz,	4) LED Indicators for Instant System Monitoring
2) Support HDMI 1.3, HDMI 1.4, 3D, HDCP,	5) No user adjustments required, Plug and Play
3) Full color, uncompressed, real-time transmission	6) 10Gbps rate,
Technical Specifications:	
Product	Mini 4K HDMI/DVI to Fiber Converter
Model	HK-4K-HDMI-X-T/R / HK-4K-DVI-X-T/R
Physical Port of the Transmitter:	2x LC(MM fiber, OM3), 1x HDMI/DVI input, 1x USB power input,
Physical Port of the Receiver:	2x LC(MM fiber, OM3), 1x HDMI/DVI output, 1x USB power input,
Fiber Optic Cable:	Multi mode fiber optic cable, OM3,
Transmission Distance	0-300 meters
Power	USB
Power Consumption	<5W
Application Humidity	10%—90%
High&Low temperature	- 10~70 Degrees Celsius
Gross Weight	0.50 kg per pair
Dimension(W×D× H)	---
